Preston Leadership Announces an Upgrade to Leadership Impact System

(Philadelphia, PA) – Preston Leadership, Inc. a leader in Corporate Leadership Development has added several new features to its Impact System in response to requests from its growing user base of clients and coaches. The Leadership Impact System provides client executives and HR managers (“stakeholders”) with a high degree of visibility into large-scale leadership development programs at their firms.

New features in this release include:

- A ‘self servicing’ reporting feature provides stakeholders with 24/7 access to activities as they occur in the program
- A dynamic visual representation of the organization
- Zoom-dependant levels of detail for better navigation and readability
- Hierarchy diagram automatically organizes itself
- All manager-staff relationships are depicted
- Diagram can be viewed in its entirety or confined to a local reporting structure
- Customized Dashboard tracks the status of each manager participating in the program
- Each session can be independently tracked for each manager
- Additional activities and documents can also be tracked through the dashboard

Preston Leadership Inc *helps corporations around the globe to succeed through mid-tier executive leadership development. Its team of certified coaches uses a custom blend of assessments and proprietary software technologies to develop more effective leadership across the entire corporation. Founded in 2004, the company is based in Philadelphia, PA.*
